

Date: 29.11.2023

To

**The Additional Director**

Ministry of Environment, Forest and Climate Change,

Integrated Regional Office,

Bays Nos. 24-25, Sector 31 A,

Dakshin Marg,

Chandigarh – 160030

(Mail ids.: [eccompliance-nro@gov.in](mailto:eccompliance-nro@gov.in) and [ronz.chd-mef@nic.in](mailto:ronz.chd-mef@nic.in))

**Subject: Submission of six monthly compliance report for period ending 30.09.2023 for Commercial Project “Fintech Square” at CP-2 Industrial Focal Point, Phase-8A, Sector-75, Mohali (Punjab) by M/s VRS Infrastructures.**

Sir,

With reference to the EIA Notification & its amendments regarding submission of six monthly compliance report, we are hereby submitting the six monthly compliance report for period ending 30.09.2023 for the above said project through mail for your perusal.

Kindly acknowledge the receipt of the same.

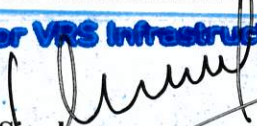

Thanking you

Sincerely,

For M/s VRS Infrastructures

Mr. Vinit Singh

(General Manager)

For VRS Infrastructures  
29/11/23  
Authorised Signatory

CC: Member Secretary, SEIAA Punjab, Directorate of Environment and Climate Change, C/o Punjab State Council for Science & Technology, MGSIPA Complex, Sector 26- Chandigarh-160019. (Uploaded on Parivesh Portal)

**DATA SHEET**

1.	<b>Project Type</b>	Commercial Project
2.	<b>Name of the Project</b>	Commercial Project “Fintech Square” at CP-2 Industrial Focal Point, Phase-8A, Sector-75, Mohali (Punjab) by M/s VRS Infrastructures
3.	<b>Clearance letter (s)/O.M No. &amp; dates</b>	Environmental Clearance has been granted by SEIAA, Punjab vide EC Identification No. EC22B038PB185275 dated 12.10.2022 and the copy of the same is attached along as <b>Annexure-1.</b>
4.	<b>Location</b>	CP-2 Industrial Focal Point, Phase-8A, Sector-75, Mohali
	<b>a) District (s)</b>	S.A.S. Nagar
	<b>b) State (s)</b>	Punjab
	<b>c) Latitudes/ Longitudes</b>	The co-ordinates of project are: 30°41'57.22"N & 76°41'33.85"E 30°41'55.11"N & 76°41'35.47"E 30°41'53.19"N & 76°41'32.42"E 30°41'55.27"N & 76°41'30.71"E
5.	<b>Address for correspondence</b>	M/s VRS Infrastructures District One, Adjoining MC office, Sector 68, Mohali, Punjab -160062
6.	<b>Salient features</b>	
	<b>a) of the project</b>	As per the Environment Clearance, the total plot area of the project is 7,998.86 sq.m. and the built-up area of the project is 45,361.80 sq.m. The estimated project cost is Rs. 186.12 Crores.
	<b>b) of the environmental management plans</b>	The total water requirement is 174 KLD out of which, net fresh water requirement will be 98 KLD which will be fulfilled by MC supply and remaining flushing water requirement 76 KLD will be met through recycling of treated wastewater. Total 139 KLD wastewater will be generated which will be treated in the STP of capacity 175 KLD. Rainwater will be recharged by providing 3 no. of recharging pits after treatment through Oil & Grease Traps. Approx. 837 kg/day of solid waste will be generated from the project which will be appropriately segregated at the source by providing bins for recyclable, Bio-degradable Components

		<p>and non-biodegradable. A mechanical Composter will be provided for the treatment of biodegradable components of the solid waste. Recyclable waste will be recycled through authorized recyclers. Inert waste will be disposed of as per the Solid Waste Management Rules, 2016.</p> <p>3,765.9 KW energy will be required which will be met from PSPCL. 3 DG sets of capacity 2x750 KVA and 1X500 KVA each will be installed with adequate enclosure. Energy will be saved by adopting following measures:</p> <p>(i) Solar panels have been proposed on the roof top of the building. The total area covered by solar panels will be 530 m<sup>2</sup> (which is 33% of roof top area i.e. 1,585 m<sup>2</sup>) which will generate 50 KW of power generation.</p> <p>(ii) Energy will be saved by utilizing LED bulbs in common &amp; street areas &amp; other measures etc.</p>
7.	<b>Break-up of the project area</b>	
	<b>a) Submergence area: Forest and Non-forest</b>	Not applicable
	<b>b) Others</b>	Not applicable
8.	<b>Break-up of project affected population with enumeration of those losing houses/dwelling units only, agricultural land only both dwelling units and agricultural land and landless labourers/ artisans.</b>	Not applicable
	<b>a) SC/ST/Adivasis</b>	Not applicable
	<b>b) Others</b> <i>(Please indicate whether these figures are based on any scientific and systematic survey carried out or only provisional figures. If a survey has been carried out give details and year of survey)</i>	Not applicable
9.	<b>Financial details:</b>	

<p><b>a) Project cost as originally planned and subsequent revised estimates and the year of price reference.</b></p>	<p>As per EC letter, estimated cost of the project is Rs. 186.12 Crores.</p>																																																					
<p><b>b) Allocations made for Environmental Management Plans with item wise and year wise break up.</b></p>	<p>As per EMP, proposed expenditure on environment protection measures as below:</p> <table border="1" data-bbox="683 510 1445 1805"> <thead> <tr> <th rowspan="2">S. 	<b>of assessment</b>	
	<b>d) Whether (c) includes the cost of environmental management as shown in b) above.</b>	Yes
	<b>e) Actual expenditure incurred on the project so far.</b>	Total Expenditure of Rs. 30.98 Crores have been incurred on the project including land till 30.09.2023.
	<b>f) Actual expenditure incurred on environmental management plans so far.</b>	Actual expenditure of Rs. 18.40 Lakhs have been incurred on the EMP till 30.09.2023.
10.	<b>Forest land requirement:</b>	No forest land is involved in the project as land has been allotted by PSIEC.
	<b>a) the status of approval for diversion of forest land for non-forestry use</b>	Not Applicable.
	<b>b) the status of clear felling, if any</b>	Not Applicable.
	<b>c) the status of compensatory afforestation, if any.</b>	Not Applicable.
	<b>d) Comments on the viability &amp; sustainability of compensatory Afforestation programme in the light of actual field experience so far.</b>	Not Applicable.
11.	<b>The status of clear felling in non-forest areas (such as submergence area of reservoir, approach road) if any, with quantitative information</b>	Not applicable
12.	<b>Status of construction:</b>	Approx. 9% of construction work (Basement foundation and basement 2 <sup>nd</sup> slab work) has been done till 30.09.2023. Photographs showing the construction status attached as <b>Annexure-2.</b>
	<b>a) Date of commencement (actual and/or planned)</b>	1 <sup>st</sup> December, 2023
	<b>b) Date of completion</b>	31 <sup>st</sup> December, 2026

	(actual and/or planned)	
13.	<b>Reasons for the delay, if the project is yet to start</b>	Not applicable

**Compliance Report on conditions imposed in Environmental Clearance for Period ending 30.09.2023**

**I. Special Condition:**

<b>S. No.</b>	<b>Conditions</b>	<b>Reply</b>
i)	The Project Proponent shall provide adequate distance of not less than 5 feet from the side boundary of the project for tree plantation.	Same will be complied.

**I. Statutory compliance:**

<b>S. No.</b>	<b>Conditions</b>	<b>Reply</b>
i)	The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.	Agreed. Building layout Plan has been approved by the competent authority, copy of approved layout plan is enclosed as <b>Annexure-3</b> .
ii)	The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc. as per National Building Code including protection measures from lightening etc.	Noted. The building has been designed by approved Structural engineer as per the NBC guidelines and seismic zone IV. Structural safety certificate is enclosed as <b>Annexure-4</b> . Fire NOC is enclosed as <b>Annexure-5</b> .
iii)	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose involved in the project.	As land has been allotted by PSIEC, thus, no forest land is involved in the project.
iv)	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.	The project does not fall in eco-sensitive zone of bird or wildlife sanctuary. Thus, NBWL clearance is not required.
v)	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention &	Extension in validity of Consent to Establish (CTE) has been obtained from Invest Punjab vide dated 11.10.2023 which is valid till 30.09.2025. Copy of the same is enclosed as <b>Annexure-6</b> .

	Control of Pollution) Act, 1974 from the Punjab Pollution Control Board.	
vi)	The project proponent shall obtain the necessary permission for the abstraction of groundwater/ surface water required for the project from the competent authority.	Water requirement will be met through MC supply as mentioned in the allotment letter. Allotment letter is enclosed as <b>Annexure-7(a)</b> .
vii)	A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.	Agreed. Temporary power load connection of 98 KW has been obtained from PSPCL.
viii)	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.	The statutory clearances are being obtained as & when required. <ul style="list-style-type: none"> <li>• NOC has been obtained from Airport Authority of India; copy of the same is attached along as <b>Annexure-8</b>.</li> <li>• Fire NOC is enclosed as <b>Annexure-5</b>.</li> </ul>
ix)	The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, and the Plastics Waste Management Rules, 2016, shall be followed.	All type of waste generated will be managed & disposed off as per the applicable Rules.
x)	The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly	Noted. ECBC guidelines will be followed.
xi)	The project site shall conform to the suitability as prescribed under the provisions laid down under the master plan of the respective city/ town. For that, the project proponent shall submit the NOC/ land use conformity certificate from Dept. of Town and Country Planning or other concerned Authority under whose jurisdiction, the site falls.	Initially, land was allotted by PSIEC to M/s Mohali Elite Park vide Memo No. PSIEC/Estate/37013 dated 09.03.2022. Copy of the allotment letter from PSIEC is attached as <b>Annexure 7(a)</b> . Later on, change in constitution of land has been issued by PSIEC to M/s VRS Infrastructures vide Memo No. PSIEC/Estate/EO/37878 dated 16.03.2022. Copy of letter from PSIEC is attached as <b>Annexure 7(b)</b> . Possession Certificate has been issued by PSIEC to M/s VRS Infrastructures vide letter no. PSIEC/SDM(M)/13 dated 05.04.2022 for

		plot area 9566.67 sq. yards. Possession Certificate is attached as <b>Annexure 7(c)</b> .
xii)	Besides the above, the project proponent shall also comply with siting criteria/guidelines, standard operating practices, code of practice, and guidelines if any prescribed by the SPCB/CPCB/MoEF&CC for such types of projects.	The project is in line with siting criteria of PPCB.
xiii)	The project proponent shall construct the buildings as per the layout plan approved by the Competent Authority and in consonance with the project proposal for which this environment clearance is being granted.	The layout plan has been approved by competent authority. Copy of approved layout plan is enclosed as <b>Annexure-3</b> .

## II. Air quality monitoring and preservation:

S. No.	Conditions	Reply
i)	Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.	Agreed. The Dust Mitigation Measures are being complied with.
ii)	A management plan shall be drawn up and implemented to contain the current exceedance in ambient air quality at the site.	Agreed. All necessary steps are being taken to reduce the air pollution and to improve the air quality.
iii)	The project proponent shall install system to undertake Ambient Air Quality monitoring for common/ criterion parameters relevant to the main pollutants released (e.g. PM10 and PM2.5) covering upwind and downwind directions during the construction period.	Ambient air quality is being monitored. Test Reports for ambient air quality are attached along as <b>Annexure 9</b> .
iv)	Diesel power generating sets proposed as source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets.	DG sets with adequate height of stack will be installed and run on low Sulphur diesel.

	Use of low Sulphur diesel would be the preferred option. The location of the DG sets may be decided with in consultation with State Pollution Control Board.	
v)	Construction site shall be adequately barricaded before the construction begins. Dust, smoke and other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, and continuous dust/ wind-breaking walls all around the site (at least 3 m height or 1/3rd of the building height and maximum up to 10 m). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murrum and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.	Agreed. All necessary steps like barricading sheets around construction area, tarpaulin sheets for covering vehicles carrying construction materials, etc. are being followed to reduce the air pollution during construction phase.
vi)	No Excavation of soil shall be carried out without adequate dust mitigation measures in place.	Adequate dust mitigation measures are being followed.
vii)	No loose soil or sand or construction and demolition waste or any other construction material that causes dust shall be left uncovered.	Agreed. No uncovered vehicles carrying construction material and waste are being permitted.
viii)	No uncovered vehicles carrying construction material and waste shall be permitted.	Agreed; vehicles carrying construction material are covered with tarpaulin sheets.
ix)	All the topsoil excavated during construction activities should be stored for use in horticulture/landscape development within the project site.	Agreed. During construction activities, topsoil excavated is being stored & utilized for landscaping within the project site.
x)	Grinding and cutting of building material in open areas shall be prohibited. A wet jet shall be provided for grinding and stone cutting.	Noted.
xi)	Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.	Agreed water sprinkling is being carried out at the construction site.

xii)	All construction and demolition debris shall be stored at the site within the earmarked area and roadside storage of construction material and waste shall be prohibited. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules 2016.	Agreed. Construction waste produced from the project site will be used within the project premises for road making, leveling purpose, etc.
xiii)	The diesel generator sets to be used during the construction phase shall be low sulphur diesel type and shall conform to the norms and regulations prescribed under air and noise emission standards.	Agreed. DG with inbuilt acoustic enclosure and adequate stack height will be installed. Further, LSD will be used as fuel for DG set.
xiv)	The gaseous emissions from the DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.	Agreed. DG with inbuilt acoustic enclosure and adequate stack height will be installed. Further, LSD will be used as fuel for DG set.
xv)	For indoor air quality, the ventilation provisions as per the National Building Code of India shall be complied with.	Agreed. National Building Code will be followed for ventilation provision.
xvi)	Roads leading to or at the construction site must be paved and blacktopped (i.e., metallic roads should be built and used).	Agreed. Same will be complied.
xvii)	Dust Mitigation measures shall be displayed prominently at the construction site for easy public viewing.	Agreed and same is being complied.
xviii)	Construction and Demolition Waste Processing and Disposal site shall be identified and required dust mitigation measures will be notified at the site.	Agreed. The same shall be taken care off.

### III. Water quality monitoring and preservation:

S. No.	Conditions	Reply														
i)	The natural drain system should be maintained for ensuring unrestricted flow of water.	Agreed. It is being made sure that no Natural drainage will be altered during construction or the operational phase.														
ii)	No construction shall be allowed which obstructs the natural drainage through the site, in wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rainwater.	Agreed. No obstruction to natural drainage will be done.														
iii)	Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.	Agreed. Best architectural design practices have been followed for designing the building with minimum cutting & filling.														
iv)	<p>a) The total water requirement for the project shall be 174 KLD, out of which 98 KLD shall be met through own tube well. Total freshwater use shall not exceed the proposed requirement as provided in the project details and other relevant details as under:</p> <table border="1"> <thead> <tr> <th>Sr. No.</th> <th>Total water Requirement</th> <th>Total wastewater generated</th> <th>Treated wastewater</th> <th>Flushing water requirement</th> <th>Green area requirement</th> <th>Into sewer</th> </tr> </thead> <tbody> <tr> <td>1.</td> <td>174 KLD</td> <td>139 KLD</td> <td>136 KLD</td> <td>76 KLD</td> <td>Summer: 1 KLD Winter: 0.5 KLD Monsoon: 0.1 KLD</td> <td>ummer: 59 KLD Winter: 59.5 KLD Monsoon: 59.9 KLD</td> </tr> </tbody> </table> <p>b) Storage tank of adequate capacity shall be provided for the storage of treated wastewater and all efforts shall be made to supply the same for construction purposes.</p>	Sr. No.	Total water Requirement	Total wastewater generated	Treated wastewater	Flushing water requirement	Green area requirement	Into sewer	1.	174 KLD	139 KLD	136 KLD	76 KLD	Summer: 1 KLD Winter: 0.5 KLD Monsoon: 0.1 KLD	ummer: 59 KLD Winter: 59.5 KLD Monsoon: 59.9 KLD	<p>a) Agreed. STP of 175 KLD will be installed for treatment of wastewater generated from the project.</p> <p>b) Agreed. Storage tank will be provided to store treated water from</p>
Sr. No.	Total water Requirement	Total wastewater generated	Treated wastewater	Flushing water requirement	Green area requirement	Into sewer										
1.	174 KLD	139 KLD	136 KLD	76 KLD	Summer: 1 KLD Winter: 0.5 KLD Monsoon: 0.1 KLD	ummer: 59 KLD Winter: 59.5 KLD Monsoon: 59.9 KLD										

	c) During the construction phase, the project proponent shall ensure that the wastewater generated from the labour quarters/toilets shall be treated and disposed of in an environment-friendly manner. The project proponent shall also exercise the option of modular bio-toilets or will provide proper and adequately designed septic tanks for the treatment of such wastewater and treated effluents shall be utilized for green area/plantation.	STP during operation phase.  c) Agreed. The same is being complied.
v)	The project proponent shall ensure a safe drinking water supply to the habitants. Adequate treatment facility for drinking water shall be provided, if required.	Agreed. Adequate facilities is being provided for safe drinking water.
vi)	The quantity of freshwater usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC and SEIAA along with six-monthly monitoring reports.	Agreed. The water meters will be installed for monitoring quantity of fresh water used as well as recycled water during operation phase.
vii)	A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration, and the balance of water available. This should be specified separately for groundwater and surface water sources, ensuring that there is no impact on other users.	Water requirement will be met through MC supply as mentioned in the allotment letter. Allotment letter is enclosed as <b>Annexure-7(a)</b> .
viii)	At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape, etc. would be considered as pervious surface.	Agreed. The same shall be taken care off.
ix)	Dual pipe plumbing shall be installed for supplying fresh water for drinking, cooking and bathing, etc. and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, air conditioning etc.	Agreed. Dual plumbing system will be provided for utilizing fresh water as well as treated wastewater within the project.

x)	Installation of R.O. plants in the project will be discouraged in order to reduce water wastage in form of RO reject. However, in case the requirement of installing RO plant is unavoidable, the rejected stream from the RO shall be separated and shall be utilized by storing the same within the particular component or in a common place in the project premises.	Agreed. The same shall be taken care off.																		
xi)	The project proponent shall also adopt the new/innovative technologies like low water discharging taps (faucet with aerators) /urinals with electronic sensor system/waterless urinals/twin flush cisterns/ sensor-based alarm system for overhead water storage tanks and make them a part of the environmental management plans/building plans so as to reduce the water consumption/groundwater abstraction.	Agreed. Best available technologies will be used for conservation of water.																		
xii)	<p>The project proponent will provide plumbing system for reuse of treated wastewater for flushing/other purposes etc. and will colour code the different pipelines carrying water/wastewater from different sources / treated wastewater as follows:</p> <table border="1" data-bbox="347 904 1058 1852"> <thead> <tr> <th data-bbox="347 904 427 987">Sr. No.</th> <th data-bbox="432 904 836 987">Nature of the Stream</th> <th data-bbox="841 904 1058 987">Color code</th> </tr> </thead> <tbody> <tr> <td data-bbox="347 994 427 1032">a)</td> <td data-bbox="432 994 836 1032">Fresh water</td> <td data-bbox="841 994 1058 1032">Blue</td> </tr> <tr> <td data-bbox="347 1039 427 1160">b)</td> <td data-bbox="432 1039 836 1160">Untreated wastewater from Toilets/ urinal and from Kitchen</td> <td data-bbox="841 1039 1058 1160">Black</td> </tr> <tr> <td data-bbox="347 1167 427 1323">c)</td> <td data-bbox="432 1167 836 1323">Untreated wastewater from Bathing/shower area, hand washing (Washbasin / sinks) and from Cloth Washing</td> <td data-bbox="841 1167 1058 1323">Grey</td> </tr> <tr> <td data-bbox="347 1330 427 1778">d)</td> <td data-bbox="432 1330 836 1778">Reject water streams from RO plants and AC condensate (this is to be implemented wherever centralized AC system and common RO has been proposed in the Project). 			from the STP treating black water		
		f)	Treated wastewater (for reuse for flushing purposes or any other activity except plantation) from the STP treating greywater	Green with strips	
		g)	Storm water	Orange	
xiii)	Water demand during construction should be reduced by the use of pre-mixed concrete, curing agents, and adopting other best practices.				Agreed. Curing agents as well as other best practices are being used during construction work to reduce water demand.
xiv)	The CGWA provisions on rainwater harvesting should be followed. A rainwater harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of the plot area and a storage capacity of a minimum of one day of the total freshwater requirement shall be provided. In areas where groundwater recharge is not feasible, the rainwater should be harvested and stored for reuse. As per the proposal submitted by the project proponent, 3 no. recharging pits will be provided for groundwater recharging as per the CGWB norms. The groundwater shall not be withdrawn without approval from the Competent Authority.				Agreed. 3 rain water recharging pits will be constructed within the project premises for ground water recharging.
xv)	All recharge should be limited to shallow aquifers.				Agreed. It will be complied.
xvi)	No groundwater shall be used during the construction phase of the project. Only treated sewage/wastewater shall be used. A proper record in this regard should be maintained and should be available at the site.				Agreed, only treated water is used for construction purpose.
xvii)	Any groundwater dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any groundwater abstraction or dewatering.				Water requirement will be met through MC supply as mentioned in the allotment letter. Allotment letter is enclosed as <b>Annexure-7(a)</b> .

xviii)	The quantity of freshwater usage, water recycling, and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC, and SEIAA along with six-monthly Monitoring reports.	The records of fresh water usage, treated water from STP will be maintained during operation phase and will be submitted to the Regional Office, MoEF&CC.
xix)	Sewage shall be treated in the STP with tertiary treatment by providing ultra-filtration Technology. STP shall be installed in a phased manner viz a viz in the module system designed in such a way so as to efficiently treat the wastewater with an increase in its quantity due to rise in occupancy. The treated effluent from STP shall be recycled/reused for flushing and gardening. No treated water shall be disposed of into the municipal storm water drain.	Wastewater generated during operation phase will be treated in in-house STP and treated water will be recycled for flushing, landscaping, etc.
xx)	No sewage or untreated effluent would be discharged through storm water drains. Onsite sewage treatment with a capacity to treat 100% wastewater will be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry / SEIAA before the project is commissioned for operation. Treated wastewater shall be reused on-site for landscape, flushing, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by the Ministry of Environment, Forest, and Climate Change. Natural treatment systems shall be promoted.	Agreed. STP will be installed for the treatment of sewage and only treated wastewater will be reused to maximum extent.
xxi)	Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odor problem from STP.	Agreed. The same will be complied once the project is operational.
xxii)	Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.	Agreed. The same will be complied.

#### IV. Noise monitoring and prevention:

S. No.	Conditions	Reply
i)	Ambient noise levels shall conform to commercial area both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.	Ambient noise levels are being monitored regularly. Test Reports for ambient air and noise level are attached along as <b>Annexure-9</b> .
ii)	A Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.	Noise level are being monitored. Test Reports are attached along as <b>Annexure-9</b> .
iii)	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.	Agreed. PPEs are being provided to construction labourers.

#### V. Energy Conservation measures:

S. No.	Conditions	Reply
i)	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.	Agreed. The same is being complied.
ii)	Outdoor and common area lighting shall be LED.	Agreed. LED lighting will be provided in the project.
iii)	Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope,	Agreed. Best design Practices have been followed for building design and envelope .

	appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.	
iv)	Energy conservation measures like installation of LEDs for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning.	Agreed. The same will be implemented in the project.
v)	Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-law's requirement, whichever is higher.	Solar panels will be provided on the roof top of the building. The total area will be covered by solar panels will be 530 m <sup>2</sup> (which is 33% of roof top area i.e. 1,585 m <sup>2</sup> ) which will generate 50 KW of power generation.
vi)	At least 30% of the rooftop area shall be used for generating Solar power for lighting in the apartments so as to reduce the power load on the grid. A separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher.	Solar panels will be provided on the roof top of the building. The total area will be covered by solar panels will be 530 m <sup>2</sup> (which is 33% of roof top area i.e. 1,585 m <sup>2</sup> ) which will generate 50 KW of power generation.

#### VI. Waste Management:

S. No.	Conditions	Reply
i)	A certificate from the competent authority handling municipal solid wastes, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project shall be obtained.	It is proposed to handle the biodegradable waste internally. Recyclable waste will be sold to local recyclers and domestic hazardous waste in the form of used oil and E-waste will be given to authorized recycler. Inert waste will be dumped to authorized dumping site.
ii)	The Project Proponent shall install Mechanical Composter of adequate capacity to treat wet component of the Solid Waste.	Agreed. The Composter of 400 kg capacity to treat wet component of the Solid Waste will be installed once the project is in operational phase.

iii)	Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and should be safely disposed of taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	The muck generated during construction phase will be used for leveling and filling purpose within the project. No muck will be disposed outside the premises.
iv)	Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.	Agreed. The same will be complied.
v)	Organic waste compost/ Vermiculture pit/ Organic Waste Converter/Mechanical Composter within the premises must be installed for treatment and disposal of the solid waste.	Agreed. Composter of 400 kg/day capacity will be installed.
vi)	All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie up must be done with the authorized recyclers.	Agreed. The same will be complied.
vii)	Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.	Agreed. The same shall be taken care off.
viii)	Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials.	Agreed. Ready mixed concrete comprising of fly ash is being used in the project.
ix)	Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27 <sup>th</sup> August, 2003 and 25 <sup>th</sup> January, 2016. Ready mixed concrete must be used in building construction.	Agreed. Ready mixed concrete comprising of fly ash is being used in the project.

x)	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Waste Management Rules, 2016.	Agreed. Construction waste will be used within the project for road making or flooring to the maximum extent possible.
xi)	Used CFLs and TFLs should be properly collected and disposed off/ sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.	Agreed. The same will be complied.

### VII. Green Cover:

S. No.	Conditions	Reply
i)	No naturally growing tree should be felled/transplanted unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department.	No tree cutting is involved in the project. Thus, permission is not required.
ii)	At least a single line plantation all around the boundary of the project as proposed shall be provided. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety. The project proponent shall ensure the planting of 142 trees in the project area at the identified location, as the per proposal submitted, with plants of native species preferably having broad leaves. The size of the plant thus planted should not be less than 6 ft and each plant shall be protected with a fence and properly maintained. The project proponent shall make adequate provisions of funds to ensure maintenance of the plants for a further period of three years and thereafter, protected throughout the entire lifetime of the Project. The species with	Agreed. Tree plantation will be done.

	heavy foliage, broad leaves, and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping. The plantation should be undertaken as per SEIAA guidelines.	
iii)	The Project Proponent shall develop a green belt with native tree species (having canopy type structure and especially trees, and not grass) before the completion of the project. The greenbelt shall inter alia cover the entire periphery of the unit provided that the number of trees to be planted should not be less than one tree per 80 sqm of the total land area. The canopy trees shall also be planted around the parking area to provide shade to the parked vehicles.	Agreed. The same will be compiled.
iv)	Where the trees need to be cut with prior permission from the concerned local authority, compensatory plantation in the ratio of 1: 10 (i.e. planting of 10 saplings of the same species for every tree that is cut) shall be done and the newly planted saplings will be maintained for at least 5 years. Green belt development shall be undertaken as per the details provided in the project document.	No tree cutting is involved in the project.
v)	Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.	The top soil excavated during construction activities has been stored and will be utilized for landscaping within the project premises to the maximum possible extent.
vi)	The project proponent shall not use any chemical fertilizer /pesticides /insecticides and shall use only Herbal pesticides/insecticides and organic manure in the green area.	Noted. No chemical fertilized/ pesticides will be used in green area.
vii)	The green belt along the periphery of the plot shall achieve an attenuation factor conforming to the day and night noise standards prescribed for commercial land use.	Agreed. Adequate green area will be provided within the project premises.

viii)	The project proponent shall submit the progress of developing the green belt in the six-monthly compliance report.	Agreed. The same will be complied.
-------	--	------------------------------------

### VIII. Transport:

S. No.	Conditions	Reply
i)	<p>A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.</p> <ul style="list-style-type: none"> <li>• Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.</li> <li>• Traffic calming measures.</li> <li>• Proper design of entry and exit points.</li> <li>• Parking norms as per local regulation.</li> </ul>	Adequate parking space will be provided within the project premises. Wide roads for the entry and exit have been proposed.
ii)	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.	Agreed. Vehicles used at the construction site are having valid PUC and are being monitored regularly during construction phase. PUC certificates of construction vehicles are enclosed as <b>Annexure 10.</b>
iii)	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 05 Km radius of the site in different scenarios of	Adequate parking space has been proposed within the project premises. Wide roads for the entry and exit have been proposed. Parking areas will be fully internalized. Thus, there will be no traffic congestion.

	space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.	
iv)	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.	Adequate parking area will be made available for the vehicles within the project premises.

#### IX. Human health issues:

S. No.	Conditions	Reply
i)	All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.	Agreed. Personal Protection Equipment (PPEs) are being provided to workers for safety.
ii)	For indoor air quality, the ventilation provisions as per the National Building Code of India should be followed.	NBC is being followed for construction of the project.
iii)	An emergency preparedness plan based on the Hazard Identification and Risk Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, and medical health care, creche, etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	Agreed. All the necessary facilities are being provided to labors site like fuel for cooking, Toilets, Fresh drinking water, temporary houses, etc. at the construction site.
iv)	Occupational health surveillance of the workers shall be done on a regular basis.	Health check-up of the workers will be done regularly.

v)	A First Aid Room shall be provided in the project both during construction and operations of the project.	First aid facility is being provided at the project site during construction phase and the same will be provided during operational phase also.
----	---	---

#### **X. Environmental Management Plan:**

<b>S. No.</b>	<b>Conditions</b>	<b>Reply</b>
i)	The company shall have a well-laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violations of the environmental / forest/wildlife norms/conditions. The company shall have defined system of reporting infringements/ deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stakeholders. A copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of the six-monthly report.	Noted. A well laid down environmental policy duly approved by the Board of Directors will be formed.
ii)	A separate Environmental Cell both at the project and company headquarters level, with qualified personnel shall be set up under the control of senior Executive, who will report directly to the head of the organization.	Agreed. Environment Management Cell will be formed for the monitoring of environment related aspects.
iii)	An action plan for implementing EMP and environmental conditions along with the responsibility matrix of the company shall be prepared and shall be duly approved by the competent authority. The year-wise funds earmarked for environmental protection measures shall be kept in a separate account and will not be diverted for any other purpose. The project proponent shall spend the minimum amount of Rs. 94 Lacs towards the capital cost along with Rs. 10.5 Lacs/annum towards recurring cost in construction phase and Rs 12.0 Lacs/annum	Agreed. The commitments made in the EMP report will be adhered. Rs. 18.40 Lakhs have been incurred on EMP till 30.09.2023. Proposal w.r.t S. No 2 regarding CER has already been submitted to SEIAA, Punjab.  Rs. 29,01,785.70/- have been spent on CER activities till 30.09.2023 on installation of Composter of 2,000 kg/day capacity and shredder of 1,000

towards recurring cost in operation phases of the project including the environmental monitoring cost under the Environmental Management Plan (EMP) of the proposed project as per the details given in Table below:

**Construction Phase:**

S r. N o.	Description	Capit al Cost (Rs. in Lacs)	Recur ring cost (in LPA)	Recur ring cost(in LPA)
<b>Construction Phase</b>				<b>Opera tion Phase</b>
1.	Air Pollution Control (tarpaulin sheets/ barricading, water sprinklers, etc.)	5	0.5	0.5
2.	Water Pollution Control (STP of Capacity 175 KLD)	25	2	2
3.	Noise Pollution Control	2	0.5	0.5
4.	Landscaping	2	1	3 (For 3 years)
5.	Solid Waste Management (Mechanical composter of 400 kg)	15	1.5	1
6.	Rain water Recharging (3 pits)	6	1	1

kg capacity in Municipal Corporation, SAS Nagar, Mohali. Ledger along with copy of bills is enclosed as **Annexure 11**.

7.	Energy Conservation (LED lights in common areas, solar panels, etc.)	30	2	2
8.	Miscellaneous (Appointment of Consultants & Management of Environment Cell)	9	2	2
	<b>Total</b>	<b>94 Lakhs</b>	<b>10.5 Lakhs</b>	<b>12 Lakhs</b>

**CER Activities:**

Sr. No.	Activities	Total Expenditure (in Lakhs)
1.	<b>Rejuvenation of village pond</b> Adoption of pond located in the village Sohana SAS Nagar for pond rejuvenation and maintenance	60
2.	<b>Green belt development</b> Development of Mini Forest (Nanak Bagichi) partly through Miyawaki technique on an experimental basis and balance through conventional plantation of tall plants of indigenous species	60

3.	<b>Energy conservation</b> <ul style="list-style-type: none"><li>• Installation of solar panels on the roof top area of the Govt. Senior Secondary School located in village- Gige Majra, SAS Nagar</li><li>• Installation of solar panels on the roof top of the gaushala.</li></ul>	20
4.	<b>Solid Waste Management</b> Installation of mechanical composter of 2,000 kg/day capacity in Municipal Corporation, SAS Nagar, Mohali	30
<b>Total</b>		<b>186</b>

*Note: Proposal w.r.t S. No 2 above is to be submitted for approval to SEIAA within one month.*

The entire cost of the environmental management plan will continue to be borne by the project proponent Year-wise progress of implementation of the action plan shall be reported to the Ministry/Regional Office along with the Six-monthly Compliance Report. Also, the project proponent shall submit physical/financial progress along with utilization certificates and documentary evidence (including photographs and short video clips) of the works undertaken in lieu of CER activities in all the subsequent six-monthly compliance reports till the completion of these activities.

### XI. Validity:

S. No.	Conditions	Reply
i)	This environmental clearance will be valid for a period of ten years from the date of its issue as per MoEF & CC, GoI notification No. S.O. 1807 (E) dated 12.04.2022 or till the completion of the project, whichever is earlier.	Noted.

### XII. Miscellaneous:

S. No.	Conditions	Reply
i)	The project proponent shall obtain a completion and occupancy certificate from the Competent Authority and submit a copy of the same to the SEIAA, Punjab before allowing any occupancy.	Agreed. The completion certificate will be obtained after the construction is over and the same will be submitted to concerned authorities.
ii)	The project proponent shall comply with the conditions of CLU, if obtained.	CLU is not applicable. However, land has been allotted by PSIEC for development of commercial project at CP-2 Industrial Focal Point, Phase-8A, Sector-75, Mohali, Punjab. Copy of allotment letter along with possession certificate is enclosed as <b>Annexure-7(a), 7(b) &amp; 7(c)</b> .
iii)	The project proponent shall prominently advertise in at least two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEF&CC/SEIAA website where it is displayed.	Agreed & Complied. Advertisement has been published in the newspaper. Copy of newspaper cutting stating the same is enclosed as <b>Annexure-12</b> .
iv)	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn have to publicly display the same for 30 days from the date of receipt.	Copies of the environmental clearance were submitted to concerned authorities.

v)	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on a half-yearly basis.	The compliance of Environment clearance conditions including monitoring results are being updated on the company's website ( <a href="https://www.fintechsquare.in/approvals/">https://www.fintechsquare.in/approvals/</a> ). Snapshot showing the same is enclosed as <b>Annexure-13</b> .
vi)	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the Ministry of Environment, Forest and Climate Change at the Environment Clearance portal and submit a copy of the same to SEIAA.	Agreed. Six monthly compliance for the period ending 31.03.2023 has been uploaded on the website of the Ministry of Environment, Forest and Climate Change at Environment Clearance portal. Copy of acknowledgement for last submission is enclosed as <b>Annexure 14</b> .
vii)	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put the same on the website of the company.	Agreed. The same will be submitted separately.
viii)	The project proponent shall inform the Regional Office as well as SEIAA Punjab, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.	Same is being complied.
ix)	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.	Noted. Stipulations made by the State Pollution Control Board and the State Government is being strictly followed.
x)	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitments made during public hearing and also those made to SEIAA / SEAC during their presentation.	Agreed. The commitments made in the EMP report are being adhered.
xi)	No further expansion or modifications in the project shall be carried out other than those permitted in this EC without prior approval of SEIAA. In case of deviation or	Noted. No changes will be made without prior permission from the Ministry of

	alterations in the project proposal from those submitted to the Ministry/SEIAA for clearance, a fresh reference shall be made to the Ministry/SEIAA, as applicable, to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.	Environment, Forest and Climate Change (MoEF&CC)/SEIAA.
xii)	The Regional Office, MoEF&CC, Chandigarh, Punjab Pollution Control Board and SEIAA/ SEAC members nominated for the purpose shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) entrusted with this monitoring by furnishing the requisite data/ information/monitoring reports.	Agreed. Full cooperation will be extended to the officer of the Regional Office and PPCB by furnishing the requisite data/ information/ monitoring reports
xiii)	This Environmental Clearance is granted subject to final outcome of pending related cases in the Hon'ble Supreme Court of India, Hon'ble High Courts, Hon'ble NGT and any other Court of Law as may be applicable to this project.	Noted.

### **XIII. Additional Conditions:**

<b>S. No.</b>	<b>Conditions</b>	<b>Reply</b>
i)	The project proponent is required to utilize the funds partly for creating small dense clusters of multi-layered green areas through Miyawaki Technique on experimental basis as proposed, whereas the balance funds should be utilised for plantation of tall plants of native species @ 1500 plants per hectare in a conventional manner. A proposal in this regard shall be submitted by the project proponent to SEIAA for approval within a period of 1 month. SEIAA shall review the progress and performance of the area developed on the basis of Miyawaki Technique after one year to decide whether this technique can be practically and usefully adopted as an alternative to conventional tree planting of indigenous species.	Proposal for the Miyawaki Technique has already been submitted to SEIAA, Punjab vide letter dated 18.11.2022.

ii)	The approval is based on the conceptual plan/drawings submitted with the application. In case, there is variation in built-up area/green area/ any other details in the drawings approved by the competent authority, the Project Proponent shall obtain the revised Environmental Clearance.	Noted.
iii)	The Project Proponent shall ensure that the natural drainage channels in the project site including streams, drains, choes, creeks, rivulets, etc. are not disturbed so that he natural flow of rainwater, etc is not impeded ordisrupted in any manner.	It is ensured that no Natural drainage is affected during construction or the operational phase of the project.
iv)	Authorization from Punjab Pollution Control Board shall be obtained as applicable under the Bio-Medical Waste Management Rules 2016 as amended from time to time.	Being a commercial project, Bio-Medical Waste authorization is not required.
v)	The solid waste other than Bio-Medical Waste & Hazardous Waste (dry as well as wet garbage) generated should be properly collected and segregated before disposal to Municipal Authorities in accordance with the Municipal Solid Waste (Management & Handling) Rules, 2000. No municipal waste should be disposed off outside the premises in contravention of relevant rules and by-laws. Adequate measures should be taken to prevent any malodour in and around the Project premises.	Noted. The solid waste other than Bio-Medical Waste & Hazardous Waste generated will be properly collected and segregated in accordance with the Solid Waste (Management & Handling) Rules, 2016.
vi)	In the event that the project proponent decides to abandon/close the Project at any stage, he shall submit an application in the prescribed form along with requisite documents through Parivesh to SEIAA for surrendering the Environmental Clearance as per the procedure prescribed in OM dated 29.03.2022 issued by the MoEF&CC. The project proponent shall be accountable for adherence/compliance of the EC conditions till such time as the project is finallyclosed by SEIAA, based upon the certified closure report of Integrated Regional Offices (IROs) of MoEF&CC, Chandigarh/PPCB.	Noted.
vii)	This Environmental Clearance is liable to be revoked without any further notice to the Project Proponent in case of failure to comply with condition (v) above.	Agreed.
viii)	Concealing factual data or submission of false/fabricated data may result in revocation of this Environmental Clearance and attract action	Noted.

	under the provisions of Environment (Protection) Act, 1986.	
ix)	The Ministry reserves the right to stipulate additional conditions if found necessary. The Promoter Company in a time bound manner shall implement these conditions	Agreed.
x)	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and other wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India/High Courts and any other Court of Law relating to the subject matter.	Noted.
xi)	Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Noted.

ENVIRONMENTAL  
CLEARANCE

**Government of India**  
**Ministry of Environment, Forest and Climate Change**  
**(Issued by the State Environment Impact Assessment**  
**Authority(SEIAA), Punjab)**

To,

The Authorized Signatory  
 VRS INFRASTRUCTURES  
 District One, Adjoining MC office, Sector 68, Mohali, Punjab -160062

**Subject:** Grant of Environmental Clearance (EC) to the proposed Project Activity under the provision of EIA Notification 2006-regarding

Sir/Madam,

This is in reference to your application for Environmental Clearance (EC) in respect of project submitted to the SEIAA vide proposal number SIA/PB/MIS/284629/2022 dated 31 Aug 2022. The particulars of the environmental clearance granted to the project are as below.

- |   |   |
|---|---|
| 1. <b>EC Identification No.</b>                   | <b>EC22B038PB185275</b>   |
| 2. <b>File No.</b>                                | SEIAA/PB/MIS/2022/EC/27   |
| 3. <b>Project Type</b>                            | New   |
| 4. <b>Category</b>                                | B2  |
| 5. <b>Project/Activity including Schedule No.</b> | 8(a) Building and Construction projects   |
| 6. <b>Name of Project</b>                         | Commercial Project "Fintech Square" at CP-2 Industrial Focal Point, Phase-8A, Sector-75, Mohali (Punjab) by M/s VRS Infrastructures |
| 7. <b>Name of Company/Organization</b>            | VRS INFRASTRUCTURES   |
| 8. <b>Location of Project</b>                     | Punjab  |
| 9. <b>TOR Date</b>                                | N/A   |

The project details along with terms and conditions are appended herewith from page no 2 onwards.

Date: 12/10/2022

(e-signed)  
 Kamal Kumar Garg, PCS  
 Member Secretary  
 SEIAA - (Punjab)

*Note: A valid environmental clearance shall be one that has EC identification number & E-Sign generated from PARIVESH. Please quote identification number in all future correspondence.*

*This is a computer generated cover page.*

PARIVESH

*(Pro-Active and Responsive Facilitation by Interactive,  
 and Virtuous Environmental Single-Window Hub)*

This has reference to your online proposal no. SIA/PB/MIS/284629/2022 dated 31.08.2022 for environmental clearance to the above-mentioned project.

2) State Environment Impact Assessment Authority has examined the proposal for the establishment of Commercial Project namely “**Fintech Square**” in a total land area of 7998.86 sqm having built up area 45361.80 sqm located at CP-2 Industrial Focal Point, Phase-8A, Sector-75, District SAS Nagar, Punjab. The project is covered under category ‘B2’ of activity 8(a); ‘Building and Construction projects’ as per the Schedule appended to the EIA Notification 14.09.2006 and its subsequent amendments and requires appraisal at the State level.

3) The proposal has been appraised as per the procedure prescribed under the provisions of EIA Notification 14.09.2006 based on mandatory documents enclosed with the online application viz Form-1, 1A, PFR, EMP, approved plan, and additional documents and subsequent presentation /clarifications made by the project proponent and his consultant to the observations of SEIAA and SEAC.

4) This is a fresh EC project. The details of the project, as per the application and documents/ presentation submitted by the project proponent and also as informed during the meetings of SEAC/SEIAA are as under:

Sr. No.	Item	Details	
1.	Name and Location of the project	Commercial Project “Fintech Square” at CP-2 Industrial Focal Point, Phase-8A, Sector-75, Mohali (Punjab) by M/s VRS Infrastructures.	
	Project/activity covered	8 (a)	
	Category	B2	
2.	Classification/Land use pattern as per Master Plan	The project falls under Industrial & Warehouse zone as per Master Plan of SAS Nagar.	
3.	Cost of the project	Rs. 186.12 Crores	
4.	Total Plot Area, Built-up Area, and Green area	Particulars	Proposed
		Size of the project/land	7998.86 sqm
		Built-up area	45,361.80 sqm
		Green Area	239.36 sqm
5.	Latitude & Longitude	<b>Latitude</b>	<b>Longitude</b>
		30°41'57.22"N	76°41'33.85"E
		30°41'55.11"N	76°41'35.47"E
		30°41'53.19"N	76°41'32.42"E
		30°41'55.27"N	76°41'30.71"E
6.	Estimated Population	3,921 persons	
7.	Parking proposed	500 ECS	
8.	Water Requirements & source during Operation Phase	Total water demand (A): 174 KLD Flushing Water (B): 76 KLD Fresh Water demand (A-B): 98 KLD Source: MC supply	

9.	Disposal Arrangement of Wastewater in Operation Phase	<p>Total 139 KLD wastewater will be generated which will be treated in the STP of capacity 175 KLD to be installed within the project premises. The details of the disposal arrangement of treated wastewater of 136 KLD available at the outlet of STP is given as under:</p> <table border="1" data-bbox="651 427 1359 680"> <thead> <tr> <th data-bbox="659 427 715 568">Sr. No</th> <th data-bbox="722 427 858 568">Season</th> <th data-bbox="866 427 1010 568">Flushing (KLD)</th> <th data-bbox="1018 427 1185 568">Horticulture Demand for Green Area</th> <th data-bbox="1193 427 1353 568">Excess disposal into MC sewer</th> </tr> </thead> <tbody> <tr> <td data-bbox="659 580 715 607">1.</td> <td data-bbox="722 580 858 607">Summer</td> <td data-bbox="866 580 1010 607">76</td> <td data-bbox="1018 580 1185 607">1</td> <td data-bbox="1193 580 1353 607">59</td> </tr> <tr> <td data-bbox="659 618 715 645">2.</td> <td data-bbox="722 618 858 645">Winter</td> <td data-bbox="866 618 1010 645">76</td> <td data-bbox="1018 618 1185 645">0.5</td> <td data-bbox="1193 618 1353 645">59.5</td> </tr> <tr> <td data-bbox="659 656 715 683">3.</td> <td data-bbox="722 656 858 683">Rainy</td> <td data-bbox="866 656 1010 683">76</td> <td data-bbox="1018 656 1185 683">0.1</td> <td data-bbox="1193 656 1353 683">59.9</td> </tr> </tbody> </table>	Sr. No	Season	Flushing (KLD)	Horticulture Demand for Green Area	Excess disposal into MC sewer	1.	Summer	76	1	59	2.	Winter	76	0.5	59.5	3.	Rainy	76	0.1	59.9
Sr. No	Season	Flushing (KLD)	Horticulture Demand for Green Area	Excess disposal into MC sewer																		
1.	Summer	76	1	59																		
2.	Winter	76	0.5	59.5																		
3.	Rainy	76	0.1	59.9																		
10.	Rainwater recharging detail	Total of 3 no. recharging pits will be provided to recharge the rooftop rainwater of the buildings after treatment through Oil & Grease Traps.																				
11.	Solid waste generation and its disposal (After expansion)	<p>a) 837 kg/day  b) Biodegradable waste will be converted into Manure using 1 Mechanical Composter of 400 kg. Layout plan showing area marked for composter submitted. Non-biodegradable waste (recyclable waste) will be disposed off through authorized recycler vendors. Inert waste will be dumped at authorized dumping site.</p>																				
12.	Hazardous Waste & E-waste	Hazardous waste in the form of used oil from DG set will be generated which will be sold to authorized vendors as per The Hazardous & Other Wastes (Management & Transboundary Movement) Rules, 2016 and its amendments.																				
13.	Energy Requirements & Saving	<p>a) 3,765.9 KW energy will be required which will be met from PSPCL.  b) 3 DG sets of capacity 2x750 KVA and 1x500 KVA shall be installed equipped with canopy and adequate stack height.  c) Energy will be saved by adopting following measures:  (i) Solar panels have been proposed on the roof top of the building. The total area covered by solar panels will be 530 m<sup>2</sup> (which is 33% of roof top area i.e. 1,585 m<sup>2</sup>) which will generate 50 KW of power generation.  (ii) Energy will be saved by utilizing LED bulbs in common &amp; street areas &amp; other measures etc.</p>																				

6) As per the undertaking submitted by Project Proponent, the proposal neither requires approval/clearance under the Forest (Conservation) Act,1980 nor under the

Wildlife (Protection) Act,1972. Also, no litigation is pending in respect of the land on which the project is to be developed.

7) The SEAC, constituted under the provision of the EIA Notification, 2006 and comprising of Experts Members/domain experts in various fields, has examined the proposal submitted by the project proponent in the desired form along with the EMP report prepared and submitted by the Consultant accredited by the QCI/NABET on behalf of the project proponent in its 229<sup>th</sup> meeting held on 19.09.2022. The SEAC noted that the project proponent has given an undertaking that the data and information given in the application and enclosures are true to the best of his knowledge and belief and no information has been suppressed in the report. If any part of the data/information submitted is found to be false/misleading at any stage, the project may be rejected and Environmental Clearance given, if any, may be revoked at the risk and cost of the project proponent.

8) The Committee noted that the project proponent has provided adequate and satisfactory clarifications to the observations raised by it. Therefore, the Committee awarded 'Silver Grading' to the project proposal and decided to forward the case to the SEIAA with the recommendation to grant Environmental Clearance for the establishment of Commercial Project namely "**Fintech Square**" in a total land area of 7998.86 sqm having built up area 45361.80 sqm located at CP-2 Industrial Focal Point, Phase-8A, Sector-75, District SAS Nagar, Punjab, as per the details mentioned in the application proposal & subsequent presentation /clarifications made by the project proponent and his consultant.

9) The case was considered by the SEIAA in its 216<sup>th</sup> meeting held on 29.09.2022 wherein SEIAA observed that the case stands recommended by SEAC. The Authority examined and appraised the environmental impacts and other aspects of the project proposal in detail as deliberated upon and recorded in the proceedings of its 216<sup>th</sup> meeting held on 29.09.2022 and was satisfied with the same. Therefore, the Authority decided to grant the Environmental Clearance for the establishment of Commercial Project namely "**Fintech Square**" in a total land area of 7998.86 sqm having built up area 45361.80 sqm located at CP-2 Industrial Focal Point, Phase-8A, Sector-75, District SAS Nagar, Punjab, as per the details mentioned in Form 1, 1A, EMP, PFR, Approved plan and subsequent presentation /clarifications made by the project proponent and his consultant with proposed measures and subject to conditions proposed by SEAC in addition to the proposed measures.

10) Accordingly, SEIAA, Punjab hereby accords Environmental Clearance to the aforesaid project under the provisions of EIA Notification dated 14.09.2006 and its subsequent amendments subject to proposed measures and strict compliance of terms and conditions as follows:

**Special Condition:**

1. The Project Proponent shall provide adequate distance of not less than 5 feet from the side boundary of the project for tree plantation.

**I. Statutory compliances:**

- i) The project proponent shall obtain all necessary clearances/ permissions from all relevant agencies including the town planning authority before commencement of work. All the construction shall be done in accordance with the local building bye laws.
- ii) The approval of the Competent Authority shall be obtained for the structural safety of buildings due to earthquakes, adequacy of firefighting equipment, etc. as per the National Building Code including protection measures from lightning, etc.
- iii) The project proponent shall obtain forest clearance under the provisions of the Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purposes is involved in the project.
- iv) The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
- v) The project proponent shall obtain Consent to Establish / Operate under the provisions of the Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the Punjab Pollution Control Board.
- vi) The project proponent shall obtain the necessary permission for the abstraction of groundwater/ surface water required for the project from the competent authority.
- vii) A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
- viii) All other statutory clearances such as the approvals for storage of diesel from the Chief Controller of Explosives, Fire Department, and Civil Aviation Department shall be obtained, as applicable, by project proponents from the respective competent authorities.
- ix) The provisions of the Solid Waste (Management) Rules, 2016, E-Waste (Management) Rules, 2016, Construction & Demolition Waste Rules, 2016, and the Plastics Waste (Management) Rules, 2016 shall be followed.
- x) The project proponent shall follow the ECBC/ECBC-R prescribed by Bureau of Energy Efficiency, Ministry of Power strictly.
- xi) The project site shall conform to the suitability as prescribed under the provisions laid down under the master plan of the respective city/ town. For that, the project proponent shall submit the NOC/ land use conformity certificate from Deptt. of Town and Country Planning or other concerned Authority under whose jurisdiction, the site falls.
- xii) Besides the above, the project proponent shall also comply with siting criteria/guidelines, standard operating practices, code of practice, and guidelines if any prescribed by the SPCB/CPCB/MoEF&CC for such types of projects.

- xiii) The project proponent shall construct the buildings as per the layout plan approved from the Competent Authority and in consonance of the project proposal for which this environment clearance is being granted.

## **II. Air quality monitoring and preservation**

- i) Notification GSR 94(E) dated 25.01.2018 of MoEF&CC regarding Mandatory Implementation of Dust Mitigation Measures for Construction and Demolition Activities for projects requiring Environmental Clearance shall be complied with.
- ii) A management plan shall be drawn up and implemented to contain the current exceedance in the ambient air quality at the site.
- iii) The project proponent shall install a system to undertake Ambient Air Quality monitoring for common /criterion parameters relevant to the main pollutants released (e.g., PM10 and PM2.5) covering upwind and downwind directions during the construction period.
- iv) Diesel power generating sets proposed as a source of backup power should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use of low sulphur diesel would be the preferred option. The location of the DG sets may be decided in consultation with Punjab Pollution Control Board.
- v) Construction site shall be adequately barricaded before the construction begins. Dust, smoke and other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, and continuous dust/ wind-breaking walls all around the site (at least 3 m height or 1/3rd of the building height and maximum up to 10 m). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murrum and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site.
- vi) No Excavation of soil shall be carried out without adequate dust mitigation measures in place.
- vii) No loose soil or sand or construction and demolition waste or any other construction material that causes dust shall be left uncovered.
- viii) No uncovered vehicles carrying construction material and waste shall be permitted.
- ix) All the topsoil excavated during construction activities should be stored for use in horticulture/landscape development within the project site.
- x) Grinding and cutting of building material in open areas shall be prohibited. A wet jet shall be provided for grinding and stone cutting.

- xi) Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.
- xii) All construction and demolition debris shall be stored at the site within the earmarked area and roadside storage of construction material and waste shall be prohibited. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules 2016.
- xiii) The diesel generator sets to be used during the construction phase shall be low sulphur diesel type and shall conform to the norms and regulations prescribed under air and noise emission standards.
- xiv) The gaseous emissions from the DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.
- xv) For indoor air quality, the ventilation provisions as per the National Building Code of India shall be complied with.
- xvi) Roads leading to or at the construction site must be paved and blacktopped (i.e., metallic roads should be built and used).
- xvii) Dust Mitigation measures shall be displayed prominently at the construction site for easy public viewing.
- xviii) Construction and Demolition Waste Processing and Disposal site shall be identified and required dust mitigation measures will be notified at the site

### **III. Water quality monitoring and preservation**

- i) The natural drainage system should be maintained for ensuring unrestricted flow of water.
- ii) No construction shall be allowed which obstructs the natural drainage through the site, in wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rainwater.
- iii) Buildings shall be designed to follow the natural topography as far as possible. Minimum cutting and filling should be done.
- iv) The total water requirement for the project shall be 174 KLD, out of which 98 KLD shall be met through own tube well. Total freshwater use shall not exceed the proposed requirement as provided in the project details and other relevant details as under:

Sr. No.	Total water Requirement	Total wastewater generated	Treated wastewater	Flushing water requirement	Green area requirement	Into sewer
1.	174 KLD	139 KLD	136 KLD	76 KLD	Summer: 1 KLD Winter: 0.5 KLD Monsoon: 0.1 KLD	Summer: 59 KLD Winter: 59.5 KLD Monsoon: 59.9 KLD

- b) Storage tank of adequate capacity shall be provided for the storage of treated wastewater and all efforts shall be made to supply the same for construction purposes.
- c) During the construction phase, the project proponent shall ensure that the wastewater generated from the labour quarters/toilets shall be treated and disposed of in an environment-friendly manner. The project proponent shall also exercise the option of modular bio-toilets or will provide proper and adequately designed septic tanks for the treatment of such wastewater and treated effluents shall be utilized for green area/plantation.
- v) The project proponent shall ensure a safe drinking water supply to the habitants. Adequate treatment facility for drinking water shall be provided, if required.
- vi) The quantity of freshwater usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC and SEIAA along with six-monthly monitoring reports.
- vii) A certificate shall be obtained from the local body supplying water, specifying the total annual water availability with the local authority, the quantity of water already committed, the quantity of water allotted to the project under consideration, and the balance of water available. This should be specified separately for groundwater and surface water sources, ensuring that there is no impact on other users.
- viii) At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape, etc. would be considered as pervious surface.
- ix) Dual pipe plumbing shall be installed for supplying fresh water for drinking, cooking and bathing, etc. and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, air conditioning etc.

- x) Installation of R.O. plants in the project will be discouraged in order to reduce water wastage in form of RO reject. However, in case the requirement of installing RO plant is unavoidable, the rejected stream from the RO shall be separated and shall be utilized by storing the same within the particular component or in a common place in the project premises.
- xi) The project proponent shall also adopt the new/innovative technologies like low water discharging taps (faucet with aerators) /urinals with electronic sensor system /waterless urinals/twin flush cisterns/ sensor-based alarm system for overhead water storage tanks and make them a part of the environmental management plans/building plans so as to reduce the water consumption/groundwater abstraction.
- xii) The project proponent will provide plumbing system for reuse of treated wastewater for flushing/other purposes etc. and will colour code the different pipelines carrying water/wastewater from different sources / treated wastewater as follows:

<b>Sr. No</b>	<b>Nature of the Stream</b>	<b>Color code</b>
a)	Fresh water	Blue
b)	Untreated wastewater from Toilets/ urinal and from Kitchen	Black
c)	Untreated wastewater from Bathing/shower area, hand washing (Washbasin / sinks) and from Cloth Washing	Grey
d)	Reject water streams from RO plants and AC condensate (this is to be implemented wherever centralized AC system and common RO has been proposed in the Project). Further, in case of individual houses/establishment this proposal may also be implemented wherever possible.	White
e)	Treated wastewater (for reuse only for plantation purposes) from the STP treating black water	Green
f)	Treated wastewater (for reuse for flushing purposes or any other activity except plantation) from the STP treating greywater	Green with strips
g)	Stormwater	Orange

- xiii) Water demand during construction should be reduced by the use of pre-mixed concrete, curing agents, and adopting other best practices.

- xiv) The CGWA provisions on rainwater harvesting should be followed. A rainwater harvesting plan needs to be designed where the recharge bores of minimum one recharge bore per 5,000 square meters of the plot area and a storage capacity of a minimum of one day of the total freshwater requirement shall be provided. In areas where groundwater recharge is not feasible, the rainwater should be harvested and stored for reuse. As per the proposal submitted by the project proponent, 3 no. recharging pits will be provided for groundwater recharging as per the CGWB norms. The groundwater shall not be withdrawn without approval from the Competent Authority.
- xv) All recharge should be limited to shallow aquifers.
- xvi) No groundwater shall be used during the construction phase of the project. Only treated sewage/wastewater shall be used. A proper record in this regard should be maintained and should be available at the site.
- xvii) Any groundwater dewatering should be properly managed and shall conform to the approvals and the guidelines of the CGWA in the matter. Formal approval shall be taken from the CGWA for any groundwater abstraction or dewatering.
- xviii) The quantity of freshwater usage, water recycling, and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC, and SEIAA along with six-monthly Monitoring reports.
- xix) Sewage shall be treated in the STP with tertiary treatment by providing ultra-filtration Technology. STP shall be installed in a phased manner viz a viz in the module system designed in such a way so as to efficiently treat the wastewater with an increase in its quantity due to rise in occupancy. The treated effluent from STP shall be recycled/reused for flushing and gardening. No treated water shall be disposed of into the municipal stormwater drain.
- xx) No sewage or untreated effluent would be discharged through stormwater drains. Onsite sewage treatment with a capacity to treat 100% wastewater will be installed. The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry / SEIAA before the project is commissioned for operation. Treated wastewater shall be reused on-site for landscape, flushing, and other end-uses. Excess treated water shall be discharged as per statutory norms notified by the Ministry of Environment, Forest, and Climate Change. Natural treatment systems shall be promoted.
- xxi) Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.
- xxii) Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed of as per the Ministry of Urban Development, Central Public

Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.

#### **IV. Noise monitoring and prevention**

- i) Ambient noise levels shall conform to the commercial area both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during the construction phase. Adequate measures shall be made to reduce noise levels during the construction phase, so as to conform to the stipulated standards by CPCB/SPCB.
- ii) A noise level survey shall be carried out as per the prescribed guidelines and a report in this regard shall be submitted to the Regional Officer of the Ministry as a part of a six-monthly compliance report.
- iii) Acoustic enclosures for DG sets, noise barriers for ground-run bays, earplugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

#### **V. Energy Conservation measures**

- i) Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC.
- ii) Outdoor and common area lighting shall be LED.
- iii) Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased daylighting design and thermal mass, etc. shall be incorporated in the building design. Wall, window, and roof U-values shall be as per ECBC specifications.
- iv) Energy conservation measures like the installation of LEDs for lighting the area outside the building should be an integral part of the project design and should be in place before project commissioning.
- v) Solar, wind, or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
- vi) At least 30% of the rooftop area shall be used for generating Solar power for lighting in the apartments so as to reduce the power load on the grid. A separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher.

#### **VI. Waste Management**

- i) A certificate from the competent authority handling municipal solid waste, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from the project shall be obtained.
- ii) The Project Proponent shall install Mechanical Composter of adequate capacity to treat wet component of the Solid Waste.
- iii) Disposal of muck during the construction phase should not create any adverse effect on the neighbouring communities and should be safely disposed of taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of the competent authority.
- iv) Separate wet and dry bins must be provided in each unit and at the ground level for facilitating the segregation of waste. Solid waste shall be segregated into wet garbage and inert materials.
- v) Organic waste compost/ Vermiculture pit/ Organic Waste Converter/Mechanical Composter within the premises must be installed for treatment and disposal of the solid waste.
- vi) All non-biodegradable waste shall be handed over to authorized recyclers for which a written tie-up must be done with the authorized recyclers.
- vii) Any hazardous waste generated during the construction phase, shall be disposed of as per applicable rules and norms with the necessary approvals of the State Pollution Control Board.
- viii) Use of environment-friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environmentally friendly materials.
- ix) Fly ash should be used as a building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready-mixed concrete must be used in building construction.
- x) Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.
- xi) Used CFLs and TFLs should be properly collected and disposed of or sent for recycling as per the prevailing guidelines/ rules of the regulatory authority to avoid mercury contamination.

## **VII. Green Cover**

- i) No naturally growing tree should be felled/transplanted unless exigencies demand. Where absolutely necessary, tree felling shall be with prior permission from the

concerned regulatory authority. Old trees should be retained based on girth and age regulations as may be prescribed by the Forest Department.

- ii) At least a single line plantation all around the boundary of the project as proposed shall be provided. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety. The project proponent shall ensure the planting of 142 trees in the project area at the identified location, as the per proposal submitted, with plants of native species preferably having broad leaves. The size of the plant thus planted should not be less than 6 ft and each plant shall be protected with a fence and properly maintained. The project proponent shall make adequate provisions of funds to ensure maintenance of the plants for a further period of three years and thereafter, protected throughout the entire lifetime of the Project. The species with heavy foliage, broad leaves, and wide canopy cover are desirable. Water intensive and/or invasive species should not be used for landscaping. The plantation should be undertaken as per SEIAA guidelines.
- iii) The Project Proponent shall develop a green belt with native tree species (having canopy type structure and especially trees, and not grass) before the completion of the project. The greenbelt shall inter alia cover the entire periphery of the unit provided that the number of trees to be planted should not be less than one tree per 80 sqm of the total land area. The canopy trees shall also be planted around the parking area to provide shade to the parked vehicles.
- iv) Where the trees need to be cut with prior permission from the concerned local Authority, a compensatory plantation in the ratio of 1: 10 (i.e. planting of 10 saplings of the same species for every tree that is cut) shall be done and the newly planted saplings will be maintained for at least 5 years. Green belt development shall be undertaken as per the details provided in the project document.
- v) Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during the plantation of the proposed vegetation on site.
- vi) The project proponent shall not use any chemical fertilizer /pesticides /insecticides and shall use only Herbal pesticides/insecticides and organic manure in the green area.
- vii) The green belt along the periphery of the plot shall achieve an attenuation factor conforming to the day and night noise standards prescribed for commercial land use.
- viii) The project proponent shall submit the progress of developing the green belt in the six-monthly compliance report.

## **VIII. Transport**

- i) A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
  - a) Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
  - b) Traffic calming measures.
  - c) Proper design of entry and exit points.
  - d) Parking norms as per local regulations.
- ii) Vehicles hired for bringing construction material to the site should be in good condition and should have a valid pollution check certificate, conform to applicable air and noise emission standards, and should be operated only during non-peak hours.
- iii) A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 05 km radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on the cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies within this 05 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.
- iv) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.

#### **IX. Human health issues**

- i) All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris, or working in any area with dust pollution shall be provided with dust masks.
- ii) For indoor air quality, the ventilation provisions as per the National Building Code of India should be followed.
- iii) An emergency preparedness plan based on the Hazard Identification and Risk Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, and medical health care, creche, etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- iv) Occupational health surveillance of the workers shall be done regularly.

- v) A First Aid Room shall be provided in the project both during construction and operations of the project.

#### X. Environment Management Plan

- i) The company shall have a well-laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violations of the environmental / forest/wildlife norms/conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stakeholders. A copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of the six-monthly report.
- ii) A separate Environmental Cell both at the project and company headquarters level, with qualified personnel shall be set up under the control of senior Executive, who will report directly to the head of the organization.
- iii) An action plan for implementing EMP and environmental conditions along with the responsibility matrix of the company shall be prepared and shall be duly approved by the competent authority. The year-wise funds earmarked for environmental protection measures shall be kept in a separate account and will not be diverted for any other purpose. The project proponent shall spend the minimum amount of Rs. 94 Lacs towards the capital cost along with Rs. 10.5 Lacs/annum towards recurring cost in construction phase and Rs 12.0 Lacs/annum towards recurring cost in operation phases of the project including the environmental monitoring cost under the Environmental Management Plan (EMP) of the proposed project as per the details given in Table below:

Sr. No.	Title	Construction Phase		Operation Phase
		Capital Cost (in Lakhs)	Recurring Cost (in Lakhs per Annum)	Recurring Cost (in Lakhs per Annum)
1.	Air Pollution Control (tarpaulin sheets/barricading, water sprinklers, etc.)	5	0.5	0.5
2.	Water Pollution Control (STP of Capacity 175 KLD)	25	2	2
3.	Noise Pollution Control	2	0.5	0.5
4.	Landscaping	2	1	3 (For 3 years)
5.	Solid Waste Management (Mechanical composter)	15	1.5	1

	of 400 kg)			
6.	Rain water Recharging (3 pits)	6	1	1
7.	Energy Conservation (LED lights in common areas, solar panels, etc.)	30	2	2
8.	Miscellaneous (Appointment of Consultants & Management of Environment Cell)	9	2	2
<b>Total</b>		<b>94 Lakhs</b>	<b>10.5 Lakhs</b>	<b>12 Lakhs</b>

**CER Details:**

Sr. No.	Activities	Total Expenditure (in Lakhs)
1.	<b>Rejuvenation of village pond</b> Adoption of pond located in the village Sohana SAS Nagar for pond rejuvenation and maintenance	60
2.	<b>Green belt development</b> Development of Mini Forest (Nanak Bagichi) partly through Miyawaki technique on an experimental basis and balance through conventional plantation of tall plants of indigenous species.	60
3.	<b>Energy conservation</b> <ul style="list-style-type: none"> <li>• Installation of solar panels on the roof top area of the Govt. Senior Secondary School located in village- Gige Majra, SAS Nagar</li> <li>• Installation of solar panels on the roof top of the gaushala.</li> </ul>	20 16
4.	<b>Solid Waste Management</b> Installation of mechanical composter of 2,000 kg/day capacity in Municipal Corporation, SAS Nagar, Mohali	30
<b>Total</b>		<b>186</b>

**Note: Proposal w.r.t S. No 2 above is to be submitted for approval to SEIAA within one month.**

The entire cost of the environmental management plan will continue to be borne by the project proponent. Year-wise progress of implementation of the action plan shall be reported to the Ministry/Regional Office along with the Six-monthly Compliance Report.

Also, the project proponent shall submit physical/financial progress along with utilization certificates and documentary evidence (including photographs and short video clips) of the works undertaken in lieu of CER activities in all the subsequent six-monthly compliance reports till the completion of these activities.

## **XI. Validity**

This environmental clearance will be valid for a period of ten years from the date of its issue as per MoEF & CC, GoI notification No. S.O. 1807 (E) dated 12.04.2022 or till the completion of the project, whichever is earlier.

## **XII. Miscellaneous**

- i) The project proponent shall obtain a completion and occupancy certificate from the Competent Authority and submit a copy of the same to the SEIAA, Punjab before allowing any occupancy.
- ii) The project proponent shall comply with the conditions of CLU, if obtained.
- iii) The project proponent shall prominently advertise in at least two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEF&CC/SEIAA website where it is displayed.
- iv) The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn have to publicly display the same for 30 days from the date of receipt.
- v) The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on a half-yearly basis.
- vi) The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the Ministry of Environment, Forest and Climate Change at the Environment Clearance portal and submit a copy of the same to SEIAA.
- vii) The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put the same on the website of the company.
- viii) The project proponent shall inform the Regional Office as well as SEIAA Punjab, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
- ix) The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
- x) The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitments made during public hearing and also those made to SEIAA / SEAC during their presentation.

- xi) No further expansion or modifications in the project shall be carried out other than those permitted in this EC without prior approval of SEIAA. In case of deviation or alterations in the project proposal from those submitted to the Ministry/SEIAA for clearance, a fresh reference shall be made to the Ministry/SEIAA, as applicable, to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
- xii) The Regional Office, MoEF&CC, Chandigarh, Punjab Pollution Control Board and SEIAA/ SEAC members nominated for the purpose shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) entrusted with this monitoring by furnishing the requisite data/information/monitoring reports.
- xiii) This Environmental Clearance is granted subject to final outcome of pending related cases in the Hon'ble Supreme Court of India, Hon'ble High Courts, Hon'ble NGT and any other Court of Law as may be applicable to this project.

### **XIII. Additional Conditions**

- i) The project proponent is required to utilize the funds partly for creating small dense clusters of multi-layered green areas through Miyawaki Technique on experimental basis as proposed, whereas the balance funds should be utilised for plantation of tall plants of native species @ 1500 plants per hectare in a conventional manner. A proposal in this regard shall be submitted by the project proponent to SEIAA for approval within a period of 1 month. SEIAA shall review the progress and performance of the area developed on the basis of Miyawaki Technique after one year to decide whether this technique can be practically and usefully adopted as an alternative to conventional tree planting of indigenous species.
- ii) The approval is based on the conceptual plan/drawings submitted with the application. In case, there is variation in built-up area/green area/ any other details in the drawings approved by the competent authority, the Project Proponent shall obtain the revised Environmental Clearance.
- iii) The Project Proponent shall ensure that the natural drainage channels in the project site including streams, drains, choes, creeks, rivulets, etc. are not disturbed so that the natural flow of rainwater, etc is not impeded or disrupted in any manner.
- iv) Authorization from Punjab Pollution Control Board shall be obtained as applicable under the Bio-Medical Waste Management Rules 2016 as amended from time to time.
- v) The solid waste other than Bio-Medical Waste & Hazardous Waste (dry as well as wet garbage) generated should be properly collected and segregated before disposal to Municipal Authorities in accordance with the Municipal Solid Waste (Management & Handling) Rules, 2000. No municipal waste should be disposed off outside the premises in contravention of relevant rules and by-laws. Adequate

measures should be taken to prevent any malodour in and around the Project premises.

- vi) In the event that the project proponent decides to abandon/close the Project at any stage, he shall submit an application in the prescribed form along with requisite documents through Parivesh to SEIAA for surrendering the Environmental Clearance as per the procedure prescribed in OM dated 29.03.2022 issued by the MoEF&CC. The project proponent shall be accountable for adherence/compliance of the EC conditions till such time as the project is finally closed by SEIAA, based upon the certified closure report of Integrated Regional Offices (IROs) of MoEF&CC, Chandigarh/PPCB.
- vii) This Environmental Clearance is liable to be revoked without any further notice to the Project Proponent in case of failure to comply with condition (v) above.
- viii) Concealing factual data or submission of false/fabricated data may result in revocation of this Environmental Clearance and attract action under the provisions of Environment (Protection) Act, 1986.
- ix) The Ministry reserves the right to stipulate additional conditions if found necessary. The Promoter Company in a time bound manner shall implement these conditions.
- x) The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and other wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India/High Courts and any other Court of Law relating to the subject matter.
- xi) Any appeal against this Environmental Clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

The SEIAA reserves the right to stipulate additional conditions, if found necessary at subsequent stages and the project proponent shall implement all the said conditions in a time-bound manner. SEIAA may revoke or suspend the environmental clearance if the implementation of any of the above conditions is not found to be satisfactory.

Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of the Environment (Protection) Act, 1986.

Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

The above conditions will be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of

Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2016, the Public Liability Insurance Act, 1991 read with subsequent amendments therein.

This issues as per the decision taken by the Competent Authority.

**NOTES:-**

- Trees shall be planted as per section 39 of PUPD Building Rules 2021= 31774.03/225 = 141.21 (142 APPROX) Provided = 142 trees
- Sprinklers shall be provided.
- We shall construct the building as per approved building plan.
- We shall take plinth level from the Executive Engineer of competent authority.
- We shall provide the solar heater system and PV panels for electricity generation.
- We shall provide rain water harvesting system within the site.
- That the work related to public health shall be under the supervision of the registered plumber with the competent authority.
- We shall be responsible for the construction as per the structural design and specification prepared and certified by civil engineer / structural engineer.
- We shall provide public health facilities, sewerage, solid waste and electrical facilities as per norms.
- We shall occupy the building after taking the completion certificate and occupation certificate from competent authority.
- That if there is any change in planning and design of building, then the construction for this shall be done only after the prior approval of revised building plan from the competent authority.
- We shall abide to follow the term and conditions lay in Change of Land Use letter.
- We will not obstruct any official from entering the premises for inspection purposes.
- Certificate of conformity to regulation and structural safety for the relevant buildings (depending upon type and height).
- That structural design given by the Structural Engineer, and got supervised by following Architect or Engineer or both as the case may be.
- That all plans and drawings shall be submitted with an un-editable Compact Disc/DVD or any other electronic medium permissible by competent authority from time to time along with hard copies of plans.
- We shall abide to take required NOC's from any department, if any.
- We shall abide to pay the scrutiny fees/or any other charges.
- Certificate of conformity of design as per Punjab Energy Conservation Building Code, 2016, if applicable, as per its notification.

**APPROVAL OF FIRE SAFETY ARRANGEMENTS**

**ਫਾਇਰ ਸੇਫਟੀ ਪ੍ਰਬੰਧਾਂ ਦੀ ਪ੍ਰਵਾਨਗੀ**

No. 2004-58114-Fire/41356

Dated 10-Aug-2022

Certified that the Fintech Square at Plot No. CP-02, Industrial Focal Point Phase-8A, Sector-75, SAS Nagar (Mohali) has been inspected by the fire officer. This site is vacant/under-construction and is accessible to fire brigade. As per proposed drawing, building is to be constructed with 2 basements and 15 (Upper floor). Fire department has examined the fire safety layout plan/drawing and found to be fit for occupancy group Business Building subdivision Building (as per National Building Code of India/ Building bye Laws).

Issued on 10-Aug-2022 at Mohali MC

ਤਸਦੀਕ ਕੀਤਾ ਜਾਂਦਾ ਹੈ ਕਿ Fintech Square ਪਤਾ Plot No. CP-02, Industrial Focal Point Phase-8A, Sector-75, SAS Nagar (Mohali) ਦੀ ਫਾਇਰ ਅਫਸਰ ਵਲੋਂ ਪੜਤਾਲ ਕੀਤੀ ਗਈ। ਇਸ ਸਮੇਂ ਇਹ ਜਗ੍ਹਾ ਖਾਲੀ/ਉਸਾਰੀ ਅਧੀਨ ਹੈ ਅਤੇ ਫਾਇਰ ਬ੍ਰਿਗੇਡ ਦੀ ਪਹੁੰਚ ਸਕਦੀ ਹੈ। ਲੇ-ਆਊਟ ਪਲਾਨ/ ਡਰਾਈਂਗ ਮੁਤਾਬਿਕ 2 ਬੇਸਮੈਂਟ ਅਤੇ 15 ਮੰਜਿਲ ਹਨ। ਫਾਇਰ ਵਿਭਾਗ ਵਲੋਂ ਬਿਨੇਕਰਤਾ ਦੁਆਰਾ ਜਮਾ ਕਰਵਾਏ ਗਏ ਫਾਇਰ ਸੇਫਟੀ ਲੇਆਊਟ ਪਲਾਨ/ਡਰਾਈਂਗ ਨੂੰ ਖੋਖਿਆ ਗਿਆ ਅਤੇ ਨੈਸ਼ਨਲ ਬਿਲਡਿੰਗ ਕੋਡ ਪਾਰਟ 1 / ਬਿਲਡਿੰਗ ਬਾਏ ਲਾਜ਼ ਅਨੁਸਾਰ ਗਰੁੱਪ Business Building ਸਬਡੀਵੀਜਨ Building ਵਿੱਚ ਪੈਦਾ ਕੀਤਾ ਹੈ।

ਜਾਰੀ ਕਰਨ ਦੀ ਮਿਤੀ 10-Aug-2022 ਕਿੱਥੇ Mohali MC .

Approval of Fire Safety arrangements is issued subject to following conditions:

ਫਾਇਰ ਸੇਫਟੀ ਪ੍ਰਬੰਧਾਂ ਦੀ ਪ੍ਰਵਾਨਗੀ ਹੇਠ ਲਿਖੀਆਂ ਸ਼ਰਤਾਂ ਦੇ ਆਧਾਰ ਤੇ ਜਾਰੀ ਕੀਤਾ ਜਾਂਦਾ ਹੈ।

1. Occupant/Owner must install/provide fire safety arrangements as per submitted fire layout plan/drawing during construction.

ਕਾਬਜਕਾਰ/ਮਾਲਕ ਵਲੋਂ ਜਮਾਂ ਕਰਵਾਏ ਗਏ ਲੇਆਊਟ ਪਲਾਨ/ਡਰਾਈਂਗ ਅਨੁਸਾਰ ਫਾਇਰ ਸੇਫਟੀ ਦੇ ਪ੍ਰਬੰਧ ਕਰਨੇ ਲਾਜ਼ਮੀ ਹੋਣਗੇ।

2. Occupant/Owner must obtain the final NOC from fire department on completion of building construction before occupancy.

ਕਾਬਜਕਾਰ/ਮਾਲਕ ਵਲੋਂ ਇਸ ਪ੍ਰੋਜੈਕਟ ਦੀ ਉਸਾਰੀ ਉਪਰੰਤ ਫਾਇਰ ਸੇਫਟੀ ਸਬੰਧੀ ਫਾਇਰ ਐਨ.ਓ.ਸੀ ਲੈਣਾ ਹੋਵੇਗਾ।

3. Fire department may ask for additional arrangements (if necessary) after the completion of construction of building.

ਫਾਇਰ ਵਿਭਾਗ ਵਲੋਂ ਬਿਲਡਿੰਗ ਦੀ ਉਸਾਰੀ ਦਾ ਕੰਮ ਮੁਕੰਮਲ ਹੋਣ ਤੇ ਫਾਇਰ ਸੇਫਟੀ ਦਾ ਵਾਧੂ ਪ੍ਰਬੰਧ (ਜੇਕਰ ਲੋੜ ਹੋਵੇ) ਕਰਨ ਲਈ ਕਿਹਾ ਜਾ ਸਕਦਾ ਹੈ।

4. During construction, fire safety arrangements should be provided as per requirements of NBC and concerned fire officer can check the site any time.

ਐਨ.ਬੀ.ਸੀ ਅਨੁਸਾਰ ਬਿਲਡਿੰਗ ਦੀ ਉਸਾਰੀ ਸਮੇਂ ਫਾਇਰ ਸੇਫਟੀ ਦੇ ਲੋੜੀਂਦੇ ਪ੍ਰਬੰਧ ਕਰਨੇ ਜ਼ਰੂਰੀ ਹੋਣਗੇ।

5. In case of any change/alteration in the building plan, owner/occupant must re-apply for the provisional certificate.

ਜੇਕਰ ਕਾਬਜਕਾਰ/ਮਾਲਕ ਵਲੋਂ ਕੋਈ ਵੀ ਤਬਦੀਲੀ ਕੀਤੀ ਜਾਂਦੀ ਹੈ ਤਾਂ ਦੁਬਾਰਾ ਤੇ ਪ੍ਰੋਵੀਜ਼ਨਲ ਐਨ.ਓ.ਸੀ ਲਈ ਅਪਲਾਈ ਕਰਨਾ ਪਵੇਗਾ।

6. Fire department reserves the right to withdraw this issued certificate, if any change in fire/building layout plan is made without notice to fire department.

ਜੇਕਰ ਕਾਬਜਕਾਰ/ਮਾਲਕ ਵਲੋਂ ਬਿਨਾਂ ਫਾਇਰ ਵਿਭਾਗ ਦੀ ਮੰਨਜੂਰੀ ਤੋਂ ਲੇਆਊਟ ਪਲਾਨ ਵਿਚ ਕੋਈ ਤਬਦੀਲੀ ਕੀਤੀ ਜਾਂਦੀ ਹੈ ਤਾਂ ਜਾਰੀ ਕੀਤਾ ਗਿਆ ਸਰਟੀਫਿਕੇਟ ਵਾਪਸ ਲੈਣ ਦਾ ਹੱਕ ਰਾਖਵਾਂ ਹੋਵੇਗਾ।

\* Above Details cannot be used as ownership proof.

ਉਪਰੋਕਤ ਦਰਸਾਈ ਗਈ ਜਾਣਕਾਰੀ ਨੂੰ ਮਾਲਕਾਨਾ ਦੇ ਸਬੂਤ ਵਜੋਂ ਨਹੀਂ ਵਰਤਿਆ ਜਾਵੇਗਾ।

\* This is digitally created certificate, no signature are needed

ਇਹ ਡਿਜੀਟਲੀ (ਕੰਪਿਊਟਰਾਈਜ਼ਡ) ਤਿਆਰ ਕੀਤਾ ਗਿਆ ਸਰਟੀਫਿਕੇਟ ਹੈ, ਜਿਸ ਵਿੱਚ ਦਸਤਖਤ ਦੀ ਕੋਈ ਲੋੜ ਨਹੀਂ ਹੈ।

**Subject : Allotment of Commercial Site Bearing No. CP-02 for Shopping Complex/  
Multiplex measuring 9583.2 sq yards, Phase VIII-A, Focal Point Mohali.**

Dear Sir(s),

Please refer to your bid made during the course of e-auction concluded on 31.03.2021 for the purchase of commercial plot bearing No. CP-02 in Phase-VIII-A Focal Point Mohali @ Rs. 72,645/- per sq. yard measuring 9583.2 sq yards and refer to the letter issued by PSIEC vide letter no. PSIEC /Estate/9234 dated 01.07.2021 and No. 27772 dated 13.12.2021 read with notification issued by PSIEC vide memo no. PSIEC/Estate/2779-2783 dated 05.01.2022.

Commercial plot bearing No. CP-02 in Phase-VIII-A, Focal Point Mohali measuring 9583.2 sq yards @ Rs. 72,645/- per sq. Yard totalling Rs. 6,96,171,564/- is hereby allotted to you for the purpose of Shopping Complex/Multiplex on free hold basis on the following terms and conditions:-

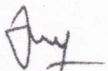

1. The price of the site has been calculated @ Rs. 72,645/- per sq. yard, which works out to Rs. 6,96,171,564/-. You have already deposited a sum of Rs. 10,44,25,735/- being 15% (excluding excess payment of Rs. 5052/-) of the above price in addition to an amount of Rs. 1,39,23,431/- towards 2% cancer cess charged extra. However price for the additional area found / known subsequent to the issue of this allotment letter, shall be charged proportionately as per bid price. In case of reduction in area, the allotment price shall be proportionately reduced from the date of allotment and money received shall be adjusted.
2. Balance 85 % of the total bid price shall be payable either in lump sum within 90 days from the date of issue of this allotment letter without interest or in 6 yearly equated installments together with normal interest at the rate of 9.5% per annum. The first installment shall be payable after 2 years of date of issue of allotment. Interest on balance payment shall be charged from 23.04.2022 onwards in conjunction with notification issued vide PSIEC/Estate/9506-9508 dated 05.07.2021 read with notification vide memo no. PSIEC/Estate/2779-2783 dated 05.01.2022.
3. The schedule of payment of balance 85% (After adjusting excess amount of Rs. 5052/-) of the price in 6 yearly equated instalments as well as due interest thereon and due date(s) of payment shall be as under:-

INSTALLMENT No.	DUE DATE	PRINCIPAL	INTEREST	TOTAL
1st	09.03.2024	9,86,23,463/-	10,84,95,072/-	20,71,19,135/-
2 <sup>ND</sup>	09.03.2025	9,86,23,463/-	4,68,46,145/-	14,54,69,608/-
3 <sup>RD</sup>	09.03.2026	9,86,23,463/-	3,74,76,916/-	13,61,00,379/-
4 <sup>TH</sup>	09.03.2027	9,86,23,463/-	2,81,07,687/-	12,67,31,150/-
5 <sup>TH</sup>	09.03.2028	9,86,23,463/-	1,87,38,458/-	11,73,61,921/-
6 <sup>TH</sup>	09.03.2029	9,86,23,463/-	93,69,229/-	10,79,92,692/-

*Signature*

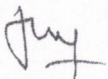

In the event of non-payment or delayed payment of any of the instalments by the due date(s), you shall be required to pay penal interest at the rate of 3% p.a. in addition to the normal interest of 9.5% p.a. with yearly compounding effect on the defaulted amount for the defaulted period. All other applicable charges promulgated by Government or any Statutory Authority of Local Government shall be over and above the bid price.

- 4) That each installment shall be remitted to the Punjab Small Industries and Export Corporation Ltd., Chandigarh by means of A/c payee bank draft payable at Chandigarh and every such remittance shall be accompanied by a letter showing full particulars of the site i.e. site No., Phase and name of the focal point. In the absence of particulars, the amount remitted shall not be deemed to have been received.
- 5) That in the event of surrender of site / building thereon by the allottee, the Corporation shall have the exclusive and undisputed right to forfeit the whole or any part of the money paid in respect of site which in no case shall exceed 25% of the total amount of consideration money.
- 6) That on payment of the entire consideration money together with interest due to PSIEC, you shall have to execute a deed of conveyance in such manner as may be directed by the PSIEC on account of transfer of site in your name. All expenses in respect of the execution & registration of conveyance deed including the cost of the stamp duty and registration fee etc. shall be payable and borne by you.
- 7) That until the entire consideration money together with interest /penal interest and any other amount, if due, to the Corporation on account of the sale of the above said site is paid, the site shall continue to be the property of PSIEC.
- 8) That you shall take possession from our SDE-concerned on production of receipt of having deposited 15% amount of auction price and a copy of the letter of allotment within 90 days of the issue of this letter.
- 9) That you shall enjoy the right of possession, so long as you continue paying installments and interest on due date and abide by other terms and conditions of allotment.
- 10) The building plan shall be prepared in accordance with Punjab Urban Planning & Development building rules 2018 as amended from time to time. You shall be required to undertake construction after getting the building plans approved from the concerned authority as under:
  - (i) Concerned Municipal body under Department of Local Govt. for the areas falling under their respective jurisdiction
  - (ii) Concerned authority of Department of Housing & Urban Development, Govt. of Punjab for the areas falling beyond the municipal limits
- 11) You shall abide by the Building Bye Laws of the concerned applicable authority as amended from time to time. You shall be allowed to undertake construction after getting the building plans approved from the concerned authority. In case any deviation from the Zonal Plan/Building Bye Laws is noted in the Plan of a site, the offending portion(s)

of the Building(s) shall be demolished under the orders of the Chief Engineer/ Superintending Engineer of PSIEC/competent authority and demolition charges as may be incurred, shall be recovered from you

- 12) Site can be developed as standalone or can also be developed as per the provisions of PAPRA, 1995 after obtaining the requisite approval as per applicable act/rules/guidelines.
- 13) You will be allowed FAR 1:3.0 and 40% ground coverage. FAR beyond 1:3.0 shall be purchasable on pro-rata basis. Height of the building shall be unlimited subject to clearance from airport Authorities as applicable.
- 14) That you shall be required to obtain permission for setting up Multiplex from the office of Dy. Commissioner S.A.S Nagar (Mohali) as applicable.
- 15) That the building on the site shall have to be completed within 3 years from the date of allotment. You shall produce completion / occupation certificate duly issued by competent authority as a proof of having completed the construction within the stipulated period.  
Consequent upon the expiry of initial three years permissible period and failure to complete the construction, you will have to seek extension in time period for completing the construction by making payment of extension fee per year @ 1% of the auction price of site for 4<sup>th</sup> and 5<sup>th</sup> year or part thereof. In case of failure to complete the construction within the prescribed / extended period, the site shall be cancelled by the Corporation without any further notice. In the event of cancellation, the Corporation shall resume the site / building and further forfeit the whole or any part of the money paid which shall not exceed 25% of the total amount of the consideration money and extension fee paid/payable as applicable. The area and dimension as shown above and as given in the respective layout plan is subject to variation at the time of delivery of physical possession of the site.
- 16) You shall pay all general and local taxes and cess imposed or assessed on the site by the competent authority.
- 17) In case basic development works in the pocket where your site falls are completed at a subsequent stage, the date of allotment for all intents and purpose shall be made effective from the date of completion of basic development works instead from the date of issuance of allotment letter.
- 18) Demarcation and plinth level will be obtained from the concerned executive engineer / sub-divisional engineer.
- 19) The site is offered on "as is where is" basis and PSiEC shall not be responsible for leveling the site.
- 20) The site and the building erected there on shall be used only for the purpose for which it has actually been sold.
- 21) That you will have to accept and abide by the rules and order made or issued by the PSIEC, Ltd. Chandigarh from time to time.
- 22) In the event of non-adherence to the payment schedule as set out in condition No. 2 & 3 and the stipulated yearly installment not-forthcoming on the due date or breach of any terms and conditions of the allotment, the Corporation shall have the right to cancel

- the allotment of site and take back the possession of the site / building after giving show cause notice of 30 days and also forfeit the whole or any part of the money paid in respect of the site which in no case shall exceed 25% of the total amount of consideration money and extension fee paid/payable as applicable.
- 23) That the said allotment shall be subject to and governed by the law, rules and regulations for the time being enforced and as amended from time to time.
  - 24) That you shall be allowed to transfer the ownership rights of the site on receipt of upto date payment. The transfer will however be subject to prior approval of the corporation as per policy.
  - 25) Officer(s) of PSIEC may at reasonable time and in reasonable manner after giving 24 (twenty four) hours' notice in writing, enter in any part of the site/building erected thereon for the purpose of ascertaining that the allottee has duly performed and observed the conditions of allotment and provisions under prevalent rules, acts and regulation as amended from time to time.
  - 26) In case of breach of any condition(s) of allotment or of regulations to non-payment of any amount due together with the penalty, the site or building, as the case may be, shall be liable to be resumed and in that case 25% of the total price plus interest due till that shall be forfeited.
  - 27) In the event of cancellation/resumption of the plot, it would be deemed to have become public premises, as defined under Punjab Public Premises and Land (Eviction and Rent Recovery) Act 1973. If upon cancellation/resumption of the plot, you do not voluntarily hand over the possession you shall be liable not only for eviction but also liable to pay to PSIEC the market rent prevailing in the area as per the law, for the period you remain in unauthorized occupation of the plot on account of cancellation/resumption.
  - 28) In case of any dispute or differences arising out of the terms and conditions of auction or allotment letter, the same shall be referred to the sole arbitration of Managing Director, PSIEC. The decision of the MD, PSIEC in this regard will be final and binding on all the parties.

District One Commercial construction  
Chunk site, Adjoining MC Building, Sector-68,  
District SAS Nagar (Mohali), Punjab - 160062

NOC FOR CONSTRUCTION OF BUILDING

Dear Sir,

1. Please refer the following letters:-
  - (a) Air HQ/S 17726/01/OPS ATS (PC-MMMCCLXVII) dt 24 Jun 22.
  - (b) Air HQ/S 17726/01/OPS ATS (PC-MMMCCLXVII) dt 07 Oct 22.
  - (c) Your letter dt 14 Oct 22 and E-mail dt 16 Nov 22.
2. NOC issued by this HQ vide Air HQ/S 17726/01/OPS ATS (PC-MMMCCLXVII) dt 24 Jun 22 and Corrigendum to NOC issued vide Air HQ/S 17726/01/OPS ATS (PC-MMMCCLXVII) dt 07 Oct 22 have been reviewed post conduct of obstruction survey by Survey of India.
3. The application has been re-examined within **provisions mentioned under Section 5(2) of Gazette of India GSR 751 (E) read in conjunction with Sub Section (1) Clause (o) & Clause (r) of Sub Section 2 of Section 5 read with Section 9A of Aircraft Act 1934, Works of Defence Act 1903** and other relevant orders on the subject. It is pertinent to mention that previous NOC issued vide Air HQ/S 17726/01/ATS (PC-MMMCCLXVII) dt 24 Jun 22 and Corrigendum to NOC issued vide Air HQ/S 17726/01/ATS (PC-MMMCCLXVII) dt 07 Oct 22 **is hereby cancelled** and Air HQ has no objection for construction of **75m AGL/ 385m AMSL** high building at Group Housing Plot No. CP-2, Industrial Focul Point, Phase-VIIIA, Sector-75, District SAS Nagar (Mohali), Punjab subject to following conditions: -
  - (a) The NOC is for construction of building and cannot be used as document for any other purpose/claim whatsoever including ownership of land.

Contd... Air HQ/S 17726/01/ATS (PC- MMMCCLXVII) dt 24 April 2023

(b) The applicant is responsible to obtain NOC/all statutory clearances from the concerned authorities including approval of building plans. Clearance shall also be obtained separately from any other defence establishment in the vicinity of proposed construction.

(c) The site elevation and site coordinates provided by the applicant are taken for calculation of the permissible top elevation of the proposed structures. If however at any stage it is established that the actual site elevation and site coordinates are different from those provided by the applicant, the NOC will be invalid.

(d) The issue of the NOC is further subject to the provisions of Sec 9A of the Indian Aircraft Act 1934 and those of any notifications issued there under from time to time including the Aircraft (Demolition of Obstruction caused by buildings and trees etc) Rules, 1994.

(e) Vertical extent (highest point) of the building proposed at coordinates mentioned below **shall not exceed 75m AGL/ 385m AMSL, whichever is lower. No extension or structure permanent or temporary (e.g. Cranes, Antennas, Mumty, Lightening Arresters, Lift machine room, Overhead water tank, Cooling towers, Sign boards, any attachment or fixtures of any kind) shall be permitted above the cleared height.**

<u>Pillar</u>	<u>Latitude</u>	<u>Longitude</u>	<u>Site Elevation</u>
1	30° 41' 57" N	76° 41' 34" E	310m AMSL
2	30° 41' 55" N	76° 41' 36" E	309m AMSL
3	30° 41' 53" N	76° 41' 32" E	308m AMSL
4	30° 41' 55" N	76° 41' 31" E	309m AMSL

(f) Standard obstruction lightings as per International Civil Aviation Organization (ICAO) standards as stipulated in ICAO Annex-14 is to be provided by the company. The lights shall be kept 'ON' at all times. Provision shall be made for standby power supply to keep the lights 'ON' during power failure. Company shall carry out periodic maintenance of the lights to keep them in serviceable and visible condition.

(g) A proper garbage disposal system in accordance with the provisions of Solid Waste Management Rules, 2016 / Gazette Notification SO 1357(E) (Para 4) or Environment (Protection) Act, 1986 including amendments shall be adhered to by the applicant for the purpose of avoiding bird activity.

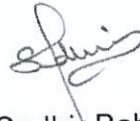

(h) No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the Airport shall be installed at the site at any time during or after the construction of the building.

Contd... Air HQ/S 17726/01/ATS (PC- MMMCCLXVII) dt 24 April 2023

(j) The commencement and completion of construction including installation of obstruction lights shall be intimated to **Air Officer Commanding, Air Force Station Chandigarh and CATCO, HQ WAC IAF, Subroto Park, New Delhi-110010**. Failure to render these certificates within the stipulated time shall lead to cancellation of NOC.

(k) The NOC is valid for **five years** from the date of its issue. If the buildings are not constructed and completed within this period, the applicant shall be required to obtain a fresh NOC from Indian Air Force.

Yours sincerely,

(Sudhir Babu)  
Group Captain

# Pak using Chinese drones to home in on 'safe' drop zones

Yudhvir.Rana@timesgroup.com

Chandigarh: The 533-km Punjab stretch of the India-Pakistan international border is seeing frequent cross-border intrusions from the skies. Smugglers backed by the neighbouring country's spy agency are using high-end Chinese drones to smuggle contraband, including drugs, arms and ammunition, into India and are suspected to be carrying out dummy runs to check vulnerabilities by airdropping soil or bricks in Indian territory, according to sources in the Border Security Force (BSF) and intelligence agencies.

The shooting down of an expensive and sophisticated Pakistan drone by the BSF and the recovery of a soil-filled pouch and brick appear to lend credence to the theory of Pakistan carrying out trial sorties.

On Saturday the BSF found a sealed blue packet airdropped by a Pakistan drone - that was turned back - in Masagarh village of Ferozepur district. BSF officials were surprised to find a brick weighing around 1 kg in it. A day prior to this, the BSF had shot down a Pak drone in the area of Shahpur Border Outpost

and a search had yielded a payload of 500 grams of soil.

The downed drone recovered from the Ajnala area was found to be a DJI Matrios 300 RTK, which has Advanced Encryption Standard (AES) 128, due to which BSF had difficulty in extraction of data, especially the flight logs.

Sources said the AES 128 uses a 128-bit key length to encrypt and decrypt a block of messages.

Sources further said that a Chinese technology company with its headquarters in Shenzhen, China, is believed to have pioneered drone manufacture, and the DJI Matri-

A blue packet dropped by a Pak drone in Ferozepur district

os 300 Real Time Kinematic (RTK) was the company's latest commercial Unmanned Aerial Vehicle platform. It offers up to 55 minutes of flight time with a cruise speed of about 90 metres per minute. However, the most advanced

Smugglers backed by the neighbouring country's spy agency are suspected to be doing dummy runs to check vulnerabilities by airdropping soil or bricks in Indian territory

drone shot down by BSF neither had dropping mechanism like latches or spindles attached to it nor cameras. However, these drones had a First Person View (FPV) camera which enabled the drone pilot to see what the drone could.

"The DJI Matrios are one of the best in the class of commercial drones with a payload capacity of 2.7 kg and costs around Rs 18 lakh in the Indian market," said sources, adding that as per the intelligence reports more than 1000 of these were supplied to Pakistan by a Chinese company in the recent past. The drone found in Ajnala had one propeller and one side was damaged, but its flight controller unit or the batteries remained undamaged. However, the 300-metre-long nylon rope attached to the drone proved baffling. "In normal circumstances, the contraband packets are attached to the carabiner hook which releases the payload through the remotely controlled release mechanism, but we didn't find any spindle or latch attached to this drone but a small packet filled with around half-kg of soil," said sources. Sources could not airdropping of soil or brick packets in India could be part of trial runs to ascertain the success of dropping 'conglomerates' at the designated area, conveyed to the Pakistan pilot by the Indian receiver through social media platforms. In Punjab, BSF has shot down four DJI Matrios RTK 300 drones in the recent past. "The anti-

drone systems installed on the India-Pakistan international border in this region have helped us detect drones but not to take control of the drones," said sources. Once the 'enemy' drone is jammed by the anti-drone system, it starts hovering in the sky but drifts as per the air current until it becomes out of range of the anti-drone systems, and the flight control again gets transferred to Pakistan pilots. "We need to have highly modern anti-drone technology that will not only jam the drones, but also shift the control in our hands," said sources.
